SCHEDA DI SICUREZZA / MATERIAL SAFETY DATA SHEET

1 Nome commerciale / Trade name

WELD OR IH - FLUX

2 Composizione - Informazioni sui componenti pericolosi / Composition - Information on hazardous components

BROMIDES: max. - 5-10% (Hbr 48%)

CAS/EINECS

10035 - 10 - 6

233 - 113 - 0

CEE

035 - 002 - 01 - 8

HS CODE

282 759

SENTENCES R. 36 - 37 - 38 CAUSES IRRITATION SYMBOLS X-1 IRRITANT SENTENCES S. 7/9 - 26

3 Identificazione dei pericoli / Hazardous product identification

THE PRODUCT IS IRRITANT AND, IF BROUGHT TO SKIN / EYES CONTACT, IT CAUSES IRRITATION AND INFLAMMATION.

4 Misure di primo soccorso / Emergency first aid treatment

EYES CONTACT

: Wash immediately with abundant running water.

Appeal to a doctor.

SKIN CONTACT

: Wash with abundant water. Appeal immediately to a doctor.

INGESTION

: Do not induce vomiting. Appeal to a doctor to decide how to clear out the stomach.

INHALATION

: Remove the subject from the contaminated environment. Let the subject rest in a well ventilated room. Appeal to a doctor.

5 Infiammabilità - Misure antincendio / Inflammability - Fire prevention

THE PRODUCT IS FLAMEPROOF

: If it is involved into a fire, use the specific protective means, extinguish with water. Do not use extinguishing powders.

RISKS OF EXPOSURE

: Not identified.

WARNING: Don't breath flue gas

: Means of protection : protect the respiratory tracts.

6 Misure da adottare in caso di fuoriuscita accidentale / What to do in the event of an accidental spillage

7 Manipolazione e stoccaggio / Handling and storage

STOCKING

: Keep the product in well closed containers and in dry and ventilated rooms far from acids, bases, and metals.

HANDLING

: Avoid any direct contact or gas inhalation Use the correct safety measures as at point 8

ENVIRONMENT:

Premises must be well ventilated

8 Controllo dell'esposizione e protezione individuale / Exposure control - Individual protection

Handle the product in a well ventilated room keeping in operation all the necessary safety measures to avoid any accidental contact with the product. Protect your eyes and your skin by wearing protective garments: gloves and glasses - Avoid to inhale and swallow the product - While using it avoid to eat - drink - smoke

9 Proprietà chimico-fisiche / Chemical-physical properties

PHYSICAL STATE AND COLOUR	LIQUID PALE YELLOW	DENSITY	: 1.169
ODOUR	AGREEABLE	pH CONSTANT	: > 1.0
BOILING POINT	: < 118°	SOLUBILITY IN WATER	: COMPLETE
MELTING POINT	: < 240° (solid)		

10 Stabilità-Reattività / Stability-Reactivity

The product is stable in normal conditions of use, conservation and applications it is bound for

CONDITIONS TO AVOID	: Keep separately from bases, metals
SUBSTANCES TO AVOID	: None
HAZARDS FROM DECOMPOSITION	: None

11 Informazioni tossicologiche / Toxicological information

Following an accidental contact with the product here are the following effects

EYES	: It may causes irritations.
SKIN	: It may causes skin irritations.
INGESTION	: It causes superficial burns to throat and oesophagus, and irritations to the gesture-intestinal apparatus.
INHALATION	: High temperature steal floods of the product irritate the respiratory tracts

12 Informazioni ecologiche / Ecological information

Use the product following the good working customs by avoiding to scatter product and containers into the environment.

13 Considerazioni sullo smaltimento / Notes on waste disposal

In compliance with the regulations in force, send the product and the packing only to the companies having the authorisation for the disposal.

14 Informazioni sul trasporto / Transportation information

Not restricted for air - road - sea transport (RID / ADR) .In case of fire DO NOT use extinguishing powders. Avoid spilling or mixed charges - do not damage the original packages.

15 Informazioni sulla regolamentazione / Regulation information

DM 28/01/92 (CLASSIFICATION AND LABELLING)

SYMBOLS :	XI	= irritant
SENTENCES R :	R 36 - 37 - 38	= causes irritations
SENTENCES S :	7/9 - 26	= keep the container well closed into a ventilated room.

16 Altre informazioni / Miscellaneous information

Any informations provided by this chart is confidential and covered by professional secret, and all the related data are based on the present knowledge about the substances formulating the product, every important variation on the components will be communicated on time.
